

Question 2 –

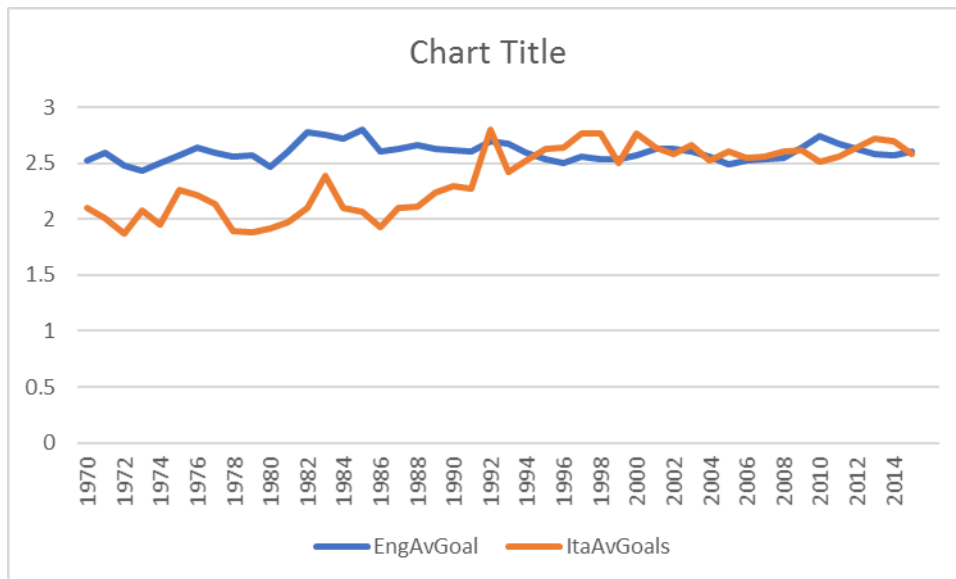

Q7

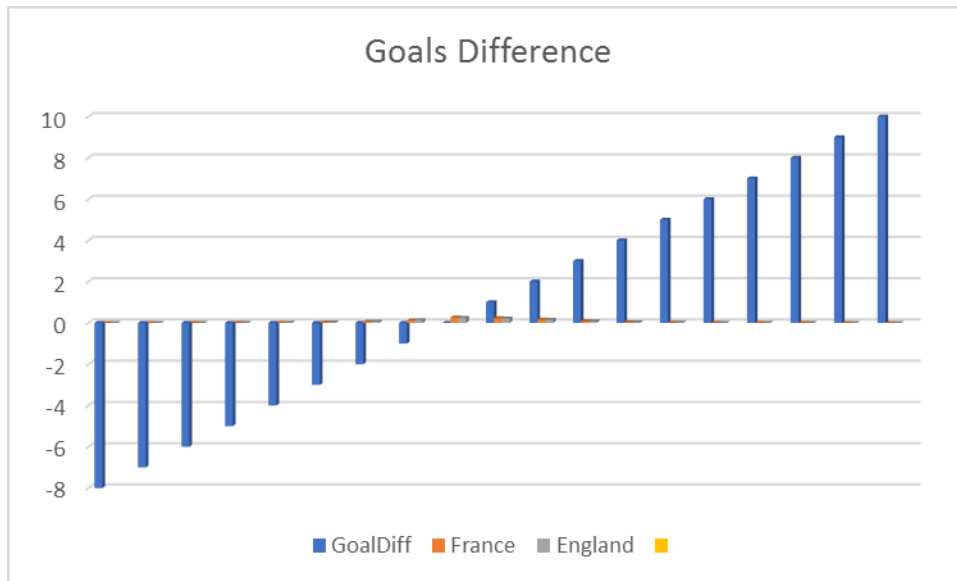

Q- 9

From 1970 to 1992, the average goal is higher in England than Italy. That means it was more difficult to score in Italy than England at that period. But, starting from 1992, the highest goals average tends to go back and forth between the two countries. The defense of both countries seems to be the same.

Q 10 -

Q-12 Number of games which have the same goal difference in france and england in tier 1 in SEASON 2010
